

Mobile versions of your Microsoft Dynamics™ CRM implementations created automatically

- ✓ the only solution offered in the Software + Services model
- ✓ individualized CRM customization – included automatically
- ✓ all three instances supported: Live, Partner-hosted, or On-Premise
- ✓ customer's data stays in its original place
- ✓ nothing needs to be installed on the CRM servers

Access your CRM data using any Windows Mobile device
- online or offline with synchronization - after investing just 15 minutes

If you are a Microsoft Dynamics Partner, try it at www.MobileConnector.com/MSCRM, and then **use our "mobilization service" to offer your customers your own, on-demand, mobile service ... without any investment, using Logotec's service in the background.** !

**"Visit us at our booth #1065
at Worldwide Partner Conference in Houston.
Partner program offered!"**

Mobile@Connector

*MS CRM user

*MS CRM password

Adapter Type MS CRM Live
 MS CRM 4
 MS CRM 3

*Server address

*Required field [Continue](#)

How it works:

- ✓ **go to** our service (www.MobileConnector.com/MSCRM)
 - ✓ **select** your Microsoft Dynamics CRM instance: Live, Partner-hosted, or On-premise
 - ✓ **enter** the address of your CRM server (not necessary for Microsoft CRM Live)
 - ✓ **login** to your CRM account
 - ✓ **decide** to mobilize all of your Microsoft Dynamics CRM functionality, or just a part of it
 - ✓ **decide** how much data you want to keep locally on your mobile device
 - ✓ **let** the service create a mobile version of your large CRM implementation
 - ✓ **wait** a few minutes for the email notification
 - ✓ **connect** your Windows Mobile device to the link sent by the notification email
 - ✓ **wait** for your application to be automatically downloaded and installed on your mobile device
 - ✓ **wait** for your data to be downloaded to your mobile device
- ... you can now access your CRM data online, or offline and synchronize instantly at any time

If you know a way to make it easier let us know

Note:

- ✓ the mobile application generated includes your specific Microsoft Dynamics CRM customization (data structure, design, etc.) ... automatically
- ✓ additional/extended customization easily possible
- ✓ integration with Pocket Calendar, Task manager, Contacts, and Pocket Outlook included automatically
- ✓ Microsoft Dynamics CRM 4.0 and 3.0 supported
- ✓ all three deployments supported: Microsoft CRM Live, Partner-hosted, and On-Premise
- ✓ Windows Mobile 6.0 and 5.0 devices supported
- ✓ 30 days free-of-charge trial
- ✓ \$25 USD, \$25 CAD (€25 outside of US/Canada) per person/month after trial
- ✓ Simple Month-to-month plan, no long term commitments
