

Mobilize your Salesforce.com CRM in minutes

Access your Salesforce.com data with any Windows Mobile device

ANYTIME – ANYWHERE - Mobile@Connector provides an all-encompassing mobile solution for your Salesforce.com environment, independent if you work online or offline, including all your salesforce.com data, customizations, custom objects and more. Developed with the world leading, Microsoft certified, Mobile@Connector platform, specifically for Salesforce.com customers, you will quickly appreciate the mobility and autonomy given to your CRM data.

ALL YOUR CUSTOMIZATIONS INCLUDED

YOUR salesforce.com on YOUR mobile device, including customizations, custom objects, record types, relationships and much more.

ONLINE AND OFFLINE WITH FULL SYNCHRONIZATION

Work online, with complete offline synchronization, with any type of connection (wired or wireless). Keep working offline, and access your key CRM data stored on your mobile device, even if you are disconnected or have no access.

A SIMPLE AND A FULLY CUSTOMIZABLE MOBILE SOLUTION

In addition to salesforce.com's standard setup and customizations, the Mobile@Connector platform allows you to further customize the user interface and experience on the mobile device, (individually to each user if necessary), with additional control of field visibility, data, validation rules etc, which may be specifically required for mobile users.

SALESFORCE.COM ENVIRONMENT

Mobile@Connector for Salesforce.com requires access to the salesforce.com API, and therefore works with Salesforce.com's Enterprise, Developer, Ultimate, and Platform editions, (Force.com), as well as any other edition(s) (Professional), where the API is available and enabled.

SUPPORTED DEVICES

All Windows based devices are supported, including:

- Pocket PC (Windows Mobile 6.0/5.0, Pocket PC 2003 Second Edition,)
- Pocket PC Phone Edition (Windows Mobile 6.0/5.0, Pocket PC 2003 Second Edition,)
- Smartphones (Windows Mobile 6.0)

EASY TO GET STARTED – EASY TO MANAGE

All the advantages of a world-leading, award winning mobile solution, together with its added customization and adaptation possibilities, makes Mobile@Connector for Salesforce.com the only choice for Windows Mobile device users.
